## FEATURED ARTIST OF THE MONTH *Theodora Saladino Krc*

Art is a transcending language which Theodora Saladino Krc uses as a forum for her visual expressions in painting and drawing. In our newly emerging consciousness, she believes that visual art becomes a very necessary & powerful tool.

Theo pushes her imagination envelope towards an ever changing new frontier of thought. Using this transcending language of art to express those thoughts, she has created a personal consciousness which lies beneath her beautiful, elegant style of painting. Using her newly formed visual perceptions, Theo imagines how life patterns of pure light would look while they exist in another dimensional space and are warped by some distant time relativity. In her creative philosophy, her cosmos would exist simultaneously to our now physical three dimensions and within a powerful magical parallel universe.
